

DigiPrime® Vision 9000

BRAND FAMILY OVERVIEW DigiPrime® Vision water-based digital print primers are designed specifically for use in the in-line priming units of HP Indigo Digital Presses. These primers optimize a wide range of substrates for labels, flexible packaging, and commercial applications immediately prior to printing.

USAGE DigiPrime® Vision 9000 imparts a print-receptive surface to most substrates to improve the ink transfer and adhesion of HP Indigo ElectroInk. It enhances the surface of a wide range of paper substrates, both uncoated and clay-coated of various basis weights, as well as PSA label stocks with paper or polyolefin face-stocks, including textured papers and transparent label stock. Used in the in-line priming unit available on both the HP Indigo 6K and 8K Digital Presses, it possesses good stability to light and is resistant to yellowing.

DESCRIPTION In-line primer for digital printing

PHYSICAL PROPERTIES The following properties are typical but should not be considered specifications:

Appearance:	Pale yellow
Non-Volatile (%) :	19.5 - 22.0
pH:	8.5 - 10.5
Brookfield Viscosity (cps) :	0 - 70
Spindle Number:	2
RPM:	60
Shelf Life (months) :	The product has a shelf life of 12 months from date of manufacture when storage and handling instructions are followed.

SITE OF MANUFACTURE (and PRODUCT CODE) USA (DPV9000), Belgium (DPV9000.E), Singapore (DPV9000.S)

APPLICATION DATA DigiPrime® Vision 9000 can be applied via flexo, gravure or roll coater.

STORAGE Keep containers tightly closed in a dry, cool and well-ventilated place. Keep from freezing.

HANDLING Handle in accordance with good industrial hygiene and safety practice. Use personal protection equipment.

DigiPrime® Vision 9000
